

EXHIBIT B-1

Human chimeric SWLA antibodies specifically interact with human immune components

The binding constants (Kd) between antibodies and Fc receptors on human lymphocytes

Standard human IgG	2.313×10^9
Standard mouse IgG	4.316×10^5
SWLA1-H	1.497×10^9
SWLA2-H	6.544×10^9
SWLA3-H	1.471×10^9
